

# Veritas Backup Exec 21

SKU: veritas-backup-exec · Brand: Veritas · Category: Backup & Recovery · Family: Backup Exec ·  
Type: Data protection suite

## Overview

Proven backup and recovery for physical, virtual and cloud workloads — one console protects servers, VMs and Microsoft 365 to disk, tape or immutable cloud storage.

## Specifications

|            |                                            |
|------------|--------------------------------------------|
| Licensing  | Per front-end TB / per-workload            |
| Sources    | Windows, Linux, VMware, Hyper-V, M365      |
| Targets    | Disk, tape, Cloud Storage (S3/Azure)       |
| Features   | Instant recovery, granular restore, dedupe |
| Schedules  | Full, incremental, synthetic, GFS          |
| Management | Single console + central admin server      |
| Compliance | Immutable cloud tier, WORM support         |
| Support    | 24×7 Veritas support                       |

## Key Highlights

- Granular restore (single email/file)
- Built-in source-side deduplication
- Microsoft 365 workload agent
- Immutable cloud tier vs ransomware
